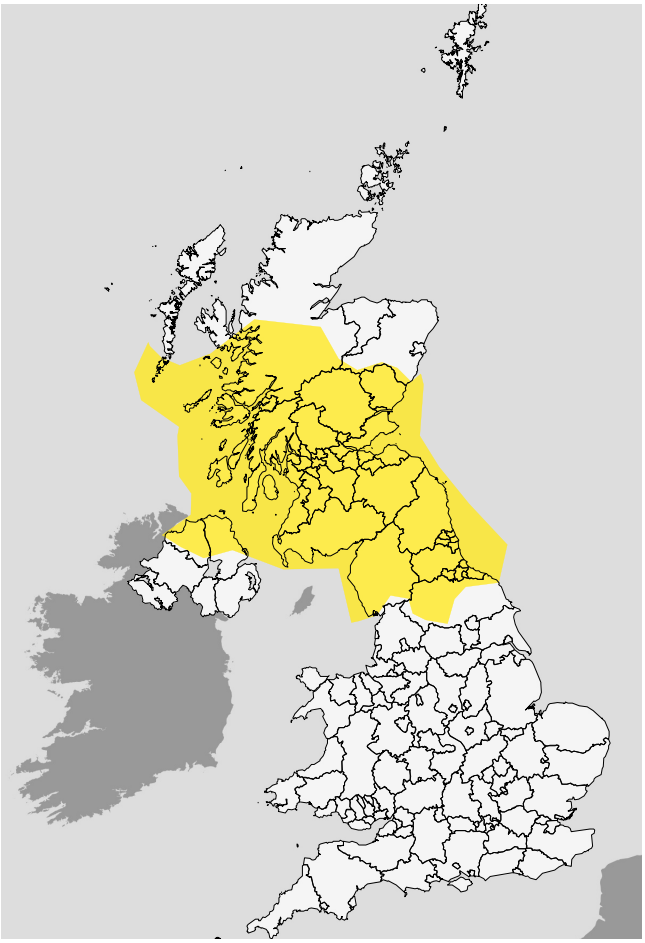
Yellow warning
Wind

Between
09:00 Wed 31 Jan 2024 and
17:00 Wed 31 Jan 2024



Strong winds are likely to cause some disruption to travel on Wednesday.

What to expect

- Some delays to road, rail, air and ferry transport expected
- Some bus and train services affected, with some journeys taking longer
- Delays for high-sided vehicles on exposed routes and bridges and damage to trees is also possible
- Some short term loss of power and other services
- Coastal routes, sea fronts and coastal communities will be affected by spray and/or large waves

Further details

Strong and blustery southwesterly winds will quickly spread southwards across Scotland on Wednesday, reaching Northern Ireland and northern England by late morning or early afternoon. Gusts of 45 to 55 mph are expected widely with a few places - most likely hills and coastal areas - likely to see gusts up to 65 mph.

During the late morning and early afternoon high gusts will be accompanied by rain, heavy at times before wind starts to slowly ease from the north later. Over western Scotland, these windy conditions will be accompanied by heavy rain at times.

High likelihood of low impacts

What should I do?

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you are on the coast, stay safe during stormy weather by being aware of large waves. Even from the shore large breaking waves can sweep you off your feet and out to sea. Take care if walking near cliffs; know your route and keep dogs on a lead. In an emergency, call 999 and ask for the Coastguard.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area
